

REMARKS

In the official action of February 7, 2005, the Examiner rejected all of the pending claims. Independent claims 1 and 14 were rejected pursuant to 35 U.S.C. § 102 in view of U.S. Patent No. 5,612,927 ("Morrison"). Independent claims 1, 8, 13 and 14 were also rejected pursuant to 35 U.S.C. § 103 in view of Morrison and U.S. Patent No. 5,587,854 ("Sato").

Applicant has amended claims 1 and 14. These amendments clarify that the locking member is movably mounted in the case and the driving unit is in the case when the locking member is in both locked and unlocked positions. Claims 8 – 13 have been cancelled.

The Morrison and Sato references fail to disclose a locking member that is movably supported by the case and a driving unit that is locked in the case when the locking member is in the locked and unlocked positions. Accordingly, Applicant believes that the claims are presently in condition for allowance.

Respectfully submitted,

David H. Bluestone
